

I am urgently asking that the FM translator service through which K-Love is broadcast not be taken off the air. I, along with many other residents in my community, have been listening to K-Love for several years now. K-Love is one radio station that provides wholesome values and encouragement in a time that our country desperately needs it, and I believe we need to be doing everything we can to promote this. Taking K-Love off the air is not in our best interest. Thank you.
